## **DETAILED ACTION**

### ***Election/Restrictions***

#### Election of species

This application contains claims directed to more than one species of the generic invention.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species as described above for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

The following specie election is required. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Specifically, applicant is required to define each of a single species of an oxygen labile active agent, for example, vitamin C, E, K, A, ascorbic acid, tocotrienol, hydroquinone, ubiquinone, dihydrolipoic acid, retinoid, and retinol. Also a single species of a plant extract, for example, Chaparral extract, Rooibos extract, Arjuna extract, Cranberry extract, and Lapacho extract. Currently, claim 1, 11, 17 are generic.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not

Art Unit: 1614

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
